CAREER OBJECTIVE

AI-focused Software Engineer and QA Tester with hands-on experience in modern web technologies, API integration, and automated/manual testing. Skilled at building reliable, scalable solutions and identifying issues before they reach production. Looking to bring strong technical and problem-solving skills to a growth-oriented team.

EXPERIENCE

AI Software Engineer & Software QA Tester

Present | 1+ Year

GenX Thofa Technologies | Puducherry, India

- Developed responsive web applications using HTML5, CSS3, JavaScript (ES6+), React.js, and Tailwind CSS, improving page load speed by 30%.
- Integrated RESTful APIs using PHP, Laravel, and Node.js, enabling seamless frontend-backend communication.
- Built reusable React components, reducing development time and improving code maintainability across projects.
- Integrated AI-based features into web applications, enhancing functionality and user experience.
- Performed Manual, Functional, Regression, and API Testing; resolved 50+ UI bugs and improved software reliability.
- Tested 20+ APIs using Postman, validating status codes, authentication, and JSON responses.
- Managed and optimized MySQL and MongoDB databases to support application performance and data integrity.
- Collaborated in Agile teams, participating in sprint planning, stand-ups, and requirement discussions.

Front End Developer Intern

Mar 2025 - Apr 2025

Minitzgo | Hyderabad, Telangana

- Developed responsive UI components using HTML5, CSS3, JavaScript, and React.js.
- Collaborated with UI/UX teams to design interactive user interfaces.
- Identified and fixed bugs, improving website performance across devices.
- Participated in code reviews and maintained project documentation.
